

“Eventually, after all these years of intensive study, application, and observation, many important factors, many missing links, started one by one to be illuminated. With time, the whole theory and practice of homeopathy emerged as I present it in this textbook. Important issues like a complete definition of health, the understanding of the human being in its three levels of existence, the hierarchical importance of the symptoms or syndromes and their interrelation, the understanding of the defense mechanism, the comprehension of the theory of the miasms in its true perspective—and many other problems were clarified.”

*George Vithoukas – The Science of Homeopathy*

An updated reissue in the Romanian language of **The Science of Homeopathy** by George Vithoukas is available for all interested to know deeper Classical Homeopathy Theory!!!
