

Event in Spain: Long term Management of Difficult Chronic Disease

This is becoming a good tradition - to hold a winter workshop of Dr. Atul Jaggi in Spain. For the second time this year, the Seminar was held in Barcelona from February 15 to 17, 2019.

Despite harsh criticism of Homeopathy by the government and the media, doctors from various regions of Spain and even from abroad came to the seminar.

Dr. Atul Jaggi presented different tactics for managing chronic diseases in patients in a long observation period.

Each case was presented taking into account the theory of the "Levels of Health" of Professor George Vithoulkas and it was demonstrated including graphs of possible reactions to the remedy and the prediction of healing.

Observing the cases, all participants could participate in the discussion, offer their own versions of possible remedies and ask questions.

Dr. Atul Jaggi conducts his seminars in such a way, that each participant can feel truly involved in the process of solving a case. Each case is accompanied by multiple videos including follow-up patients.

On the second day of the seminar, Dr. Latika Jaggi provided everyone an excellent opportunity to watch a film about the International Academy of Classical Homeopathy and, in particular, about the "E-learning" program.

Also on the second day, Dr. Atul Jaggi continued his consideration of the tactics of conducting and explaining severe chronic cases.

Many cases have demonstrated the beauty and effectiveness of Homeopathy.

On the third day, Dr. Atul Jaggi presented to the attention of the audience acute cases with video materials and again, everyone could feel at the place of the doctor, making the prescriptions.

Dr. Atul answering questions and talking about possible mistakes in prescriptions, set out in great detail and most fully all possible options.

At the conclusion of the Seminar, Professor George Vithoulkas answered questions live via Skype-conference.

At each Seminar this is the most long-awaited and exciting moment - the moment of meeting with our Maestro.

Listening and watching as the Professor says, you seem to find yourself in a special atmosphere of contact with alluring and fascinating energy.

George Vithoulkas is a real role model for everyone, who seeks to use this beautiful science called Homeopathy, for the benefit of all humanity.

And for this purpose such events as Seminars, articles and training in the spirit of classical Homeopathy - are so important today.

Thanks to everyone who participated, thanks to Atul and Latika Jaggi, thanks to Professor George Vithoulkas, under whose auspices we have the honor to meet together.

Many thanks to Juan Garcia and Dr Mercedes Meseguer for their great efforts to organize such a successful homeopathy event in Barcelona!
